Re: Minor changes in Timetable for some CHEM courses in 2022-23

Dear Year 2 or above Chemistry Students,

Due to the constraints in classroom availability and teachers' timetables, we will have some minor changes in the timetable for the following CHEM courses in the academic year 2022-23.

Course Code	Course Name	Revised timetable/time slot in 2022-23	Remarks
CHEM3142	Chemical process industries and analysis	. This course will be offered in Semester 1 in 2022-23.  . Time slot of Lectures: TUE 10:30 – 12:20 & FRI 11:30 – 12:20	/
CHEM3443	Organic chemistry laboratory	. This course will be offered in Semester 1 & Semester 2 in 2022-23, same as 2021-22.  . Time slot of Lectures: WED 12:30 – 14:20 in <u>Semester 1</u>	. Time slot of Labs: WED 14:30 – 18:20 in <u>Semester 1</u> [Same time slot as offered in 2021-22]  . Time slot of Lectures: WED 10:30 – 12:20 in <u>Semester 2</u> ; Time slot of Labs: THU 09:30 – 13:20 in <u>Semester 2</u> [Same time slots as offered in 2021-22]
CHEM4143	Interfacial science and technology	. This course will be offered in Semester 1 in 2022-23.  . Time slot of Lectures: MON 8:30 – 9:20 & WED 8:30 – 10:20	/
CHEM4241 /6117	Modern chemical instrumentation and applications	. This course will be offered in Semester 1 in 2022-23, same as 2021-22.  . Time slot of Lectures: TUE 16:30 – 18:20 & FRI 17:30 – 18:20	. Time slot of Labs: MON 15:30 – 19:20 [Same time slot as offered in 2021-22]

For more information, please refer to the course information system, which opens on July 25, 2022 for Year 2 or above Students to preview available courses (Summer semester courses will not be available before January 3, 2023). Students can download information including course details, student handbook (including instruction for selection of courses) and teaching timetable (with room allocation), which are available on Faculty of Science webpage on July 25, 2022.

Best regards,  
Department of Chemistry
